10:00pm	End of Event

Annex A – Biography of Speakers

Mr Tan Ching Hwee

Mr Tan Ching Hwee is a tech entrepreneur and circular economy pioneer with 19 years of expertise in IT, sustainability tech, and workflow automation. An Electrical and Electronic Engineering graduate from Nanyang Technological University (NTU), he is the founder of PC Dreams Group and myhalo, where he leads initiatives dedicated to creating a "Zero e-Waste World" through sustainable tech models.

In 2015, he engineered Singapore's first in-house UI/UX automated trade-in quotation engine, a proprietary architecture that powered valuation workflows for global brands including Apple and Samsung. A recognized leader in Singapore's business and ESG landscape, he serves as the Sustainability Chair and Council Member for the Association of Small & Medium Enterprises (ASME). He was named the Winner of the Entrepreneur of the Year Award (EYA) 2022 and subsequently served as the EYA Co-Chairman from 2023 to 2025.

In addition to serving as a judge for the RWS-HC Sustainability Award 2026, Ching Hwee actively mentors startups and contributes to Singapore's higher education ecosystem across institutions like NUS, NTU, and SMU, focusing on circular tech, digitalization, and pragmatic AI adoption.

Ms Zeng Shu Fei

Ms Zeng Shu Fei is the Founder and CEO of KH Marque, a Singapore-based company transforming used cooking oil into traceable, low-carbon biofuel feedstock. With more than two decades of experience in global commodity trading at Vitol and Glencore, she brings deep industry expertise and commercial insight to the renewable energy space.

Under her leadership, KH Marque has grown into Southeast Asia's largest used cooking oil collector, operating across 11 countries and supporting the supply chain for sustainable aviation fuel, renewable diesel, and other biofuel applications.

The company's work has earned recognition including the 2026 Global Recognition Award and the Chief Trailblazer of the Year title at the 2025 Platts Global Energy Awards.

Ms. Zeng's journey reflects the powerful link between vision and execution, showing how innovation, traceability, and sustainability can create measurable impact at scale.
